Local Broadcasters Receive ETV Posts

Two veterans of broadcasting will join the staff of Educational Television, Channel 16, at Omaha University, announced Mr. Paul Borge, station manager.

Mr. Leon Benschoter who has worked in the television field for 15 years will be the program director for ETV. He graduated from Iowa

State University in Ames, Ia., where he got his start at WOI-TV. Later he worked in Ottumwa, Ia.

A very versatile man, Mr. Benschoter has worked as a scene shop foreman, a lighting assistant, a cameraman, a producer-director and an operations supervisor before coming to Omaha in 1957.

He started working as a floorman at KMTV and in less than a year he was promoted to producer-director. At the present time, Mr. Benschoter is special projects director at KMTV as well as teaching a class on radio and television production techniques at the University of Nebraska, Lincoln.

Newens

Mr. Newens graduated from the University of Nebraska where he majored in English. Since that time he has had his own advertising agency, managed radio KOIL for five years, was a partner of Allen & Reynolds for five years and then he was a sales manager of Hutcheson Displays for three years. He now is the Omaha manager of Ayres & Associates Incorporated.

He has a wife, Lyndall, and two sons. An active man in the community, Mr. Newens is a member of Kiwanis and the Omaha Advertising Club. He has been publicity chairman of the Community Chest and the AAA Baseball.

Channel 16 will go on the air in September from Omaha University.

Deserving Students Await \$850 In Alum Scholarships

Five scholarships to undergraduates are available from the Alumni Association.

The Glenn L. Martin Scholarship gives 100 dollars a semester for an outstanding student in the natural or social sciences. The recipient must have at least a 2.5 grade point and be either a sophomore or junior.

The Wilfred Payne Scholarship is available to a junior who is a candidate for a BA degree with a major in one of the humanities. Scholastic average must be a 3.0 or better. This scholarship gives 150 dollars a semester.

The Peter Kiewit Engineering Scholarship awards 250 dollars per semester to a civil or industrial engineering major who intends to receive his degree from OU. Grade point must be at least a 2.5.

The Daniel E. Jenkins Memorial Scholarship grants 150 dollars a semester to a student outstanding in scholastic achievement and in service to the University and the community. The student must be in the upper 10 per cent of his class to receive this award for work to be done in the senior year. Selection may be based upon faculty and Dean of Student's office recommendations.

For the first time the Sallquist Scholarship is offered annually. It will give 200 dollars a semester. Applicants must have been enrolled two full semesters immediately prior to application and must be paying their own tuition and book fees. The prospect must also be single now and at the time he

holds the scholarship. Being active in extra-curricular activities and displaying leadership potential are also consideration points. Grade point must be a 2.75 or better.

Ma-ie Day Plans: Better Than Ever

"The Student Council is planning one of the biggest spring holidays that OU has ever had."

This observation regarding Ma-ie Day was made Tuesday by Ivan Christiansen, business manager of Student Activities.

The annual students' holiday will be held on May 14.

"A larger sum of money is being spent than ever before," Christiansen said.

The day will be filled with special events starting with a morning dance and breakfast. The coronation of the Ma-ie Day Princess will precede fun and games which follow in the women's P.E. field.

A chuckwagon picnic lunch at noon will feature charcoal-broiled steaks and fish fillets.

The Ma-ie Day parade which passes through the downtown area via Creighton University is expected to be the biggest and best ever. A new program of float cost subsidization has been instituted this year. Smaller organizations are being encouraged to build floats with a 50 dollar float subsidy, Christiansen said.

A parking lot dance may follow the parade in the float disassembling area but plans are not yet final.

Prior to teaching at OU he taught at Nebraska Wesleyan.

Official Notice

Any student interested in editing the Fall 1965 GATEWAY must make application to the Board of Student Publications not later than noon on Friday, April 30.

Application blanks are available from Paul V. Peterson, director of Student Publications, AA Room 138 E.

Pre-Scientists Coming To OU

Science student teachers from Omaha University will help set up the projects of a few hundred science students in grades seven through 12 who are coming to OU from towns in an approximately 50-mile radius.

The Eastern Nebraska Section of the Junior Academy of Science will hold its science fair in the OU fieldhouse, Saturday, April 24, from 10:30 a.m. to 2 p.m. for the public.

Dr. Paul B. Ackerson, of the department of secondary education at OU, said that the interest among science students in the science fair has increased steadily. In 1961, 415 science students from grades seven through 12 contributed their projects to the fair. In 1964, almost 600 students contributed.

The students contribute projects in the fields of biology, astronomy, electricity, physics, architecture, photography, auto mechanics, crystals, nutrition, conservation and many others.

Dr. Marquardt of the chemistry department at OU and Dr. Ackerson are co-chairman of the fair.

The people responsible for the fair are Lloyd Darrow, a science teacher at Westside High School who is president of the Eastern Nebraska Section of the Junior Academy of Science, Sister Mary Roger of Mercy High School and Robert Abel of Westbrook Junior High School.

Woodruff Wins Summer Grant

An Omaha University Physics instructor has received word of being awarded a six-week grant at Texas A and M University.

He is William Woodruff and his work will be done in radio isotope technology at the College Station, Tex. institution.

The sponsoring organizations are the National Science Foundation and the Atomic Energy Commission. Thirty such grants have been awarded across the country.

In addition to Woodruff's tuition-free grant, he will receive a 450 dollar cash stipend plus a travel allowance.

The physics instructor did his undergraduate work in physics at Nebraska Wesleyan University. He received his masters from the University of Nebraska.

Prior to teaching at OU he taught at Nebraska Wesleyan.

Scribes To Move?

Talk Comes Later On Proposed Pubs Move

Confusion occurred on the University of Omaha campus this week following a report published in the Omaha World-Herald concerning the possible moving of the student publications offices from its quarters in the Applied Arts Building.

The story in The World-Herald indicated the move might be to the Student Center Building. The item said:

"Biggest items in the summer projects list are spending \$16,180 to remodel student publications offices for 25 additional faculty members and \$11,843 to remodel the television transmitter area."

The story, which was a resume of action taken by the Omaha U. Board of Regents at their regular monthly meeting, was published in the Thursday evening Home Edition.

Director of Campus Planning and Development Clarence Lefler said the "item in the paper was a bit misleading." He said the story did not carry a sufficient amount of background information surrounding an apparent statement of fact.

He said the necessary fund requests for the move appeared on his yearly budget "so that if and when the move was approved the money would be available." Wednesday he said that meetings with interested parties involved in the move were not scheduled before the budget expenditures were approved due to the fact he had been occupied with preparation of Federal documents. He said the papers had to do with the application for 800 thousand dollar Federal grant which is hoped will partially finance the new two million dollar science and engineering building to be constructed west of the Applied Arts Building.

Mr. Lefler also took issue with the story in the World-Herald saying that "at the time the story was published there were no definite plans for a move of student publications."

He said that a meeting was

in the offing with the interested parties in the move but no date had been set.

A meeting was held Thursday morning and the results were made public by Paul Peterson, chairman of the department of journalism.

"The money has been earmarked; however, there are no plans at present for a move."

He added the matter was now pending further investigation.

Earlier in the week, Omaha University president Dr. Leland Traywick told GATEWAY Editor Leo Meidlinger "there is an acute need for additional faculty office space."

Dr. Traywick said he is "hunting" for a possible move for publications and has given some thought to the Student Center, "But," he added, "our plans are not final at this point."

Dean of Student Personnel Donald J. Pflasterer, an early opponent of the move, said he "didn't feel it would be best to move offices or student publications into the Student Center simply because there was a lack of space in other buildings."

Future Teachers Plan Busy May 1

Math, reading and personality inventory tests which are required for all people working for teacher certification will be given May 1 in room 438 of the Administration Building. The math test will be given at 9 a.m., the reading test at 9:45, and the personality inventory at 10:45.

Anyone graduating from the College of Teacher Education or who is graduating with other degrees and working for a teaching certificate needs to apply for teacher certification. Applications for teaching certificates can be picked up in Dean Gorman's office after May 1.

Regents Allocate Expenses, Approve Faculty Changes

More than 73-thousand dollars was allotted for summer building and grounds projects by the Board of Regents at its last meeting, April 15.

The board approved funds totalling 41,974 dollars for alteration work, the biggest expense coming in the way of remodeling the Student Publications Office in the Applied Arts building. (See lead story, page 1, for more details.)

Other expenses will go for painting, both interior and exterior, and general alteration and maintenance work.

The board also approved the hiring of 12 new faculty members. They are:

Larry D. Barnett, assistant professor of sociology; Perry P. Chang, associate professor of

economics; Daniel C. Fahrlander, instructor in the Technical Institute; Warren T. Francke, instructor of journalism; Joseph T. McCartney, instructor of journalism; Cora A. Martin, assistant professor in sociology; Russell W. Palmer, assistant professor of religion; Curtis C. Roseman, instructor in geography; Robert G. Ruetz, associate professor of music; Gerald T. Soukup, instructor of French; Douglas F. Tobler, assistant professor of history and; Roy E. Toothaker, instructor in reading improvement and special reading.

The board also approved the resignation of Kenneth S. Fielding, instructor of journalism, effective August 31.

The GATEWAY is published weekly by the students of the University of Omaha's Department of Journalism. Editorial comment and signed letters to the editor are not necessarily representative opinions of the faculty, administration or student body.

Letters To The Editor**Council Isolation?**

Dear Editor:

Being a first year student at the University, I have had the chance to look around campus and arrive at certain opinions.

First, the Student Council has seemed to be wringing its hands and shrugging its shoulders when it comes to the lack of interest on campus. This is true. And do you know why? It's because the "out-crowd" has little or no connection whatsoever with the "in-crowd!" And let's face it, the "in-crowd" (or those people affiliated with the Greek organizations) are installed in all of the leadership offices, namely the Student Council. Then the Student Council complains about lack of interest on the part of the students. Well, if the picture isn't clear enough, let me try to explain further.

The Student Council is isolated from the majority of the people they represent because fraternity and sorority members don't "mingle much" with those other than their own kind.

I voted for my representatives to Student Council last fall and haven't heard a word. I guess I should reconcile myself to what I've been told all along—"The Student Council? It's just like any other election, you know, competition between the Greeks!" Well, if that's the case, then why did I waste my time marking a ballot? It wasn't to help me out, was it?

University President Leland Traywick appointed a faculty committee to look into the school's future. Well, I make this suggestion to the Student Council—Why not appoint a committee to look into the aspects of social life at OU and make recommendations and take action to see that images of each club and social activity be improved?

As a member of the "out-crowd" here at OU I would like to see the social life of the "little people" revitalized. The conditions now are deplorable. The "all-school" dances and social activities are too few and far between. Then they're flops anyway, according to reliable sources.

I would like to see the Student Council appoint a committee, consisting of four on-the-ball Greek representatives, four from the four religious denominations, six willing and able persons from the "out-crowd" (so to speak), and finally the four class presidents, to meet informally and discuss the problems of spirit, facilities, etc. And later, after lengthy sessions to report their findings to the Student Council and to the student body (by way of the Gateway), and begin as soon as possible to revitalize communication between the regular students and the council and class officers.

This may have been tried before. But obviously, connections have broken off somewhere along the way. The Student Council should work along much

more closely with the student body than it does. It should come to the students once in a while, instead of always complaining the students don't come to them. How about a Council column in the Gateway?

I'd also like to know what my class officers are doing for me? For the class? I haven't heard from them either. Maybe I should just keep my mouth shut about all this, but I can't force myself to accept these cold facts.

But to wrap it up, I don't think a rebellion over tuition is half as important now as the "progressive evolution" that should erupt within the regular students of Omaha U. who are tired of being second-best and getting third-rate activities. Things just aren't as glamorous to the regular students when the Greeks get the lion's share of privileges. I have no gripe with the fraternities or sororities, excepting the way I feel about isolation between the masses, socially and officially.

I hope the Student Council considers my proposal for a committee to study these problems. It's only an idea, but things have to start somewhere.

Sincerely,
James David Faiman

Thanks, Gateway!

Dear Editor:

I want to take time to write and thank "You" for sending "The Gateway" to our daughter—Sharon Elaine Irwin (graduate of '62) your school-paper—which she not only looks forward to receiving each month—but takes great pride in showing her students.

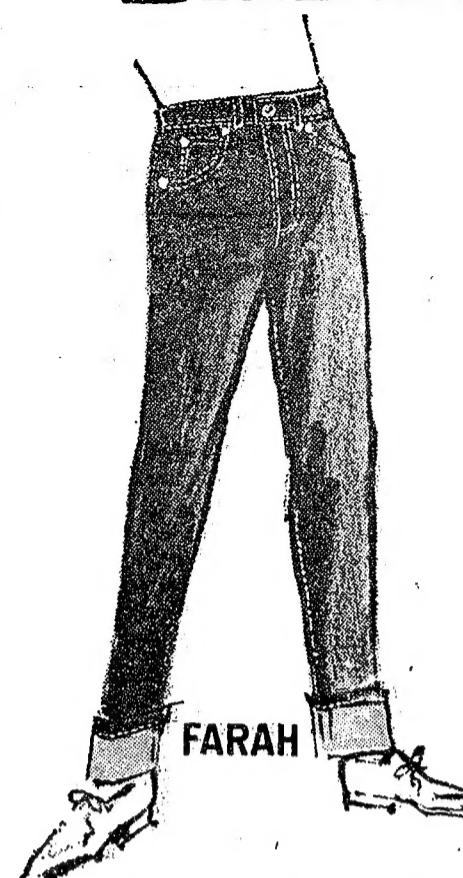

The College Town - itself where Sharon is teaching doesn't have its own newspaper—but they get the Cumberland News - about 14 miles down the mountain — so from my observation — the college doesn't get much news - The college has a little paper (but they have problems — getting the paper out — and everyone don't always get a copy. (This Sharon misses.)

Meeting many of the students during my 2½ month visit this winter: It was a great thrill to see our daughter "Put into action — what she had learned at Omaha University." - She is proud of her school and is proudly wearing (and still buying Omaha University sweatshirts)

You folks should be mighty proud of your fine library—which Sharon misses. She is teaching Physical Education at Frostburg State Teachers College—(this is located in the beautiful mountains of Maryland. The Physical Education program is growing — as not long ago, it was staffed with only two Physical Education teachers - now it has five — and possibly needing another. Sharon has been working on her

Nickelodeon To Give That Musical Touch

"Third boxcar, midnight train" . . . More noise will be added to the OUampi Room in September. A juke box with speakers throughout the room will add a musical touch to the OUampi Room. It will be sponsored by the Student Center Program Committee. One for just a dime, three for a quarter, or seven for fifty cents and you can listen to the top hits.

fourth floor, downtown; The Crossroads

Students losing their activity cards can get new ones for \$3 if it is still during the first nine weeks of classes; they must pay \$1.50 after the ninth week.

OU holiday Ma-ie Day gets its name from the end of the planting season of the Omaha Indians, occasion for festival.

By solving problems in aeronautics, Air Force scientists expand man's knowledge of the universe. Lt. Howard McKinley, M.A., tells about research careers on the Aerospace Team.

(Lt. McKinley holds degrees in electronics and electrical engineering from the Georgia Institute of Technology and the Armed Forces Institute of Technology. He received the 1963 Air Force Research & Development Award for his work with inertial guidance components. Here he answers some frequently-asked questions about the place of college-trained men and women in the U.S. Air Force.)

Is Air Force research really advanced, compared to what others are doing? It certainly is. As a matter of fact, much of the work being done right now in universities and industry had its beginnings in Air Force research and development projects. After all, when you're involved in the development of guidance systems for space vehicles—a current Air Force project in America's space program—you're working on the frontiers of knowledge.

What areas do Air Force scientists get involved in? Practically any you can name. Of course the principal aim of Air Force research is to expand our aerospace capability. But in carrying out this general purpose, individual projects explore an extremely wide range of topics. "Side effects" of Air Force research are often as important, scientifically, as the main thrust,

How important is the work a recent graduate can expect to do? It's just as important and exciting as his own knowledge and skill can make it. From my own experience, I can say that right from the start I was doing vital, absorbing research. That's one of the things that's so good about an Air Force career—it gives young people the chance to do meaningful work in the areas that really interest them.

What non-scientific jobs does the Air Force offer? Of course the Air Force has a continuing need for rated officers—pilots and navigators. There are also

many varied and challenging administrative-managerial positions. Remember, the Air Force is a vast and complex organization. It takes a great many different kinds of people to keep it running. But there are two uniform criteria: you've got to be intelligent, and you've got to be willing to work hard.

What sort of future do I have in the Air Force? Just as big as you want to make it. In the Air Force, talent has a way of coming to the top. It has to be that way, if we're going to have the best people in the right places, keeping America strong and free.

What's the best way to start an Air Force career? An excellent way—the way I started—is through Air Force Officer Training School. OTS is a three-month course, given at Lackland Air Force Base, near San Antonio, Texas, that's open to both men and women. You can apply when you're within 210 days of graduation, or after you've received your degree.

How long will I be committed to serve? Four years from the time you graduate from OTS and receive your commission. If you go on to pilot or navigator training, the four years starts when you're awarded your wings.

Are there other ways to become an Air Force officer? There's Air Force ROTC, active at many colleges and universities; and the Air Force Academy, where admission is by examination and Congressional appointment. If you'd like more information on any Air Force program, you can get it from the Professor of Aerospace Studies (if there's one on your campus) or from an Air Force recruiter.

United States Air Force

From The Bushes

By Mike Moran

Don't Miss This One . . .

At 7:30 next Tuesday evening, Omaha U baseball coach Virg Yelkin will trot out what may be OU's best baseball team of all time at Rosenblatt Stadium.

The foe will be arch rival Creighton and Bluejay fans are already sounding the trumpets for their best team in several seasons . . . which it is.

Yelkin will have in his dugout what may be one of the finest small school pitching staffs in the nation. In Larry Krehbiel, Ken McEwen, Gary Girouard, Jim Butler, Larry Wood and Dan Rezac, the veteran Indian boss has six chuckers that can start or relieve with equal ability.

Krehbiel has three shutouts, Girouard one and McEwen has been a pillar of strength since becoming the top OU fireman. Wood lost a heartbreaker to Phillips, 1-0, and the one run was unearned. Butler and Rezac have been impressive in limited performances.

Girouard won twice as a starter and contributed a great relief job against Wichita. Gary appears to have justified Yelkin's hopes that he would immediately become a front line pitcher.

Hitting Spotty . . . But Timely

Weak spot in what has been a great season so far is the Indian batting. Limited to five or less hits on five occasions during the trip, OU used the clutch hit to win the games.

Freshman Dale Lortz, used as a catcher and outfielder, and frosh shortstop Harold Lenz have been hitting heroes all year long.

Veterans Ed Bryant, Rich Vacek and Gary Gilmore have been hitting below par but with the coming of good weather should step up the pace. Lew Garrison and Lon Bernth also have chipped in with some critical hits when needed.

Bigest hitting surprise so far has been first sacker Jim Collin. Jim hasn't been out for baseball in two years and his barrage against Arkansas helped OU to a sweep over the Razorbacks at Fayetteville.

If the Indian hitting should falter, things might get tough for the pitching staff. They can't throw shutouts every time. So far the hits have been there when they were needed. Let's hope they still are at NAIA playoff time.

You're going to see a fine team and the Midwest's finest baseball coach in action Tuesday night. This team deserves the support of more than a few people. Don't miss OU and Creighton if you can help it.

Hope It's True Of All . . .

Al Caniglia has been smiling all winter about his impressive newcomers. Now that spring football has started, it's easy to see why.

Fullback Bill Dodd, the Wyoming transfer, is a terror to watch. The 212 pounder has speed and rips into the line like he was going hunting for big game with an axe. He could be a great one.

Speedy Rick Davis has all the moves in the book and will fit in nicely as a split end or flanker in OU's new "pro type" offense. Davis, when asked about OU's chances next year, replied . . . "I think we will have a great team and I am looking forward to a nice trip to California this December." That means the NAIA championship game and if Rick's attitude, a refreshing change from some in past years, is indicative of squad morale, he may get his trip. Caniglia has the horses this time, and if he can instill the fire and drive that some lettermen in recent seasons lacked, he will have a barn burner.

Al says there's more help on the way this fall and that they will be big ones. OU opens at home September 18th against Idaho State at Rosenblatt Stadium . . . game time is 7:30 p.m.

The Bengals mauled Omaha, 30-0, last year at Pocatello. A rude surprise is brewing for them this time around. For a peek at what lies ahead, try the intra-squad scrimmage May 15th.

New Xmas Trip . . .

If approved, Omaha U basketballers will be taking part in a new holiday tournament next winter. Emporia State has come up with a plan involving all five CIC schools, plus St. Benedict's, Rockhurst and Illinois State.

The December 27-30 tourney will be held at Emporia's city auditorium. Coach Jim Borsheim says, "I like it."

Davis

of the year to win in 4:19.6 over S.D.U.'s heralded freshman, Dave Heffern.

First "Home" Contest . . .

Creighton To Test Pitching Rich OU Tuesday Nite At Rosenblatt

By Mike Moran

Omaha U's touring baseballers, who have yet to taste the friendly confines of a home park, take on city rival Creighton at Rosenblatt Stadium Tuesday night at 7:30.

Coach Herb Millard's Jays got off to their best start in several seasons with five victories in their first six games.

The night contest will mark the first of three straight "home" games for Omaha. The Indians host Rockhurst on May 1st and play Creighton again on the 3rd.

OU, Wichita Split

SOUTHERN TRIP RESULTS

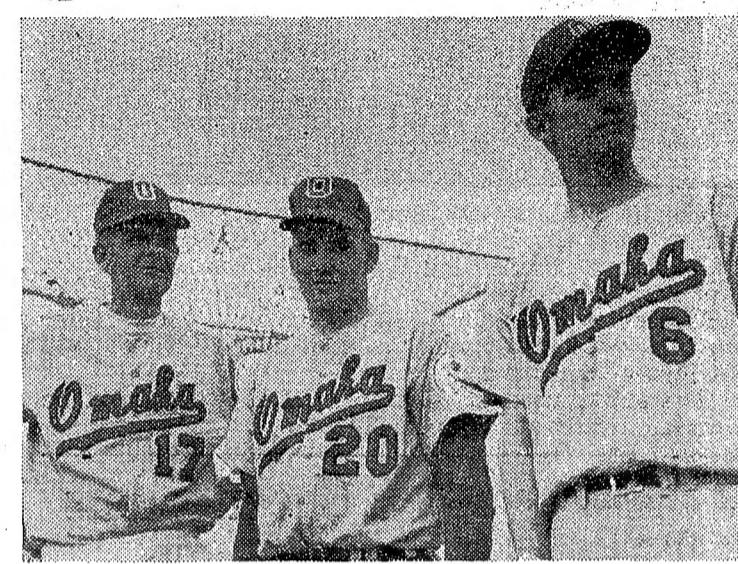

Omaha	1-1	Wichita	0-5
Omaha	8	Oklahoma City	2
Omaha	9-6	Arkansas	7-3
Omaha	1-0	Phillips	0-1
Omaha	3	Phillips	U. 0

OU opened a nine day southern trip with a doubleheader split at Wichita on April 10th. The Shockers jumped on OU righthander Jim Butler in the second inning of the first game for five runs, then held on to whip OU, 5-1. Butler gave way to freshman Gary Girouard, who held the Kansas team scoreless the rest of the way. Omaha could not muster a serious threat the rest of the way after getting a single tally in the fifth.

In the second game, OU ace Larry Krehbiel, who has yet to be beaten in three seasons, threw a one hitter and blanked the Shockers, 1-0.

The OU righthander struck out 12 and walked none in a route going performance. Freshman shortstop Harold Lenz singled in Catcher Joe Berenis with the game's only run in the second inning.

Wichita never mounted a threat against Krehbiel, who was in control the entire distance.

Yelkin, frosh stars Lortz and Lenz . . . await Jays

Omaha 4-Drake 3

Omaha U's baseball team made its season record 9-2 Thursday afternoon with a 4-3 win over the Drake Bulldogs at Des Moines.

It was the last game for OU until next Tuesday's contest at Rosenblatt Stadium with city rival Creighton at 7:30.

Box score and details were not available on the Drake game at the time this paper went to press.

Oklahoma City Falls

OU won its second road game in three starts April 11th with an 8-2 breeze past Oklahoma City. Harold Lenz led a 14 hit Omaha assault on two Chief pitchers with a four for five day at the plate.

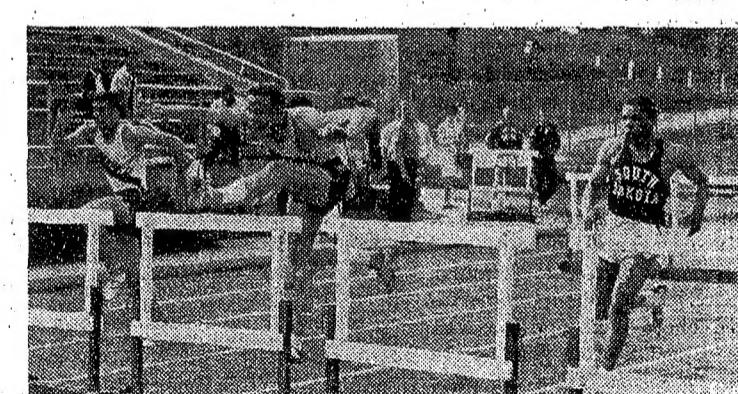

Larry Wood, the eventual winner, Ken McEwen and freshman Dan Rezac divided the pitching duties for the Indians. McEwen was impressive during a four inning stint in which he allowed two hits and fanned six.

OU scored four times in the fourth to put the game out of reach. Wood and Lon Bernth singled, Lenz singled in Wood

Jones Meets NFL Great

Omaha U's star end Jimmy Jones, got a chance last week to meet Cleveland Brown great Jim Brown. The NFL All-Star was visiting Omaha last week as part of his public relations job for Pepsi-Cola. Jones visited the KMTV studios where Brown and Channel 3 sportscaster Dave Blackwell were taping a show called "Number 32 . . . A Man of Sensitivity."

The show, without Jimmy Jones, however, will be shown at a later date on KMTV.

Aw . . . C'mon Guys: We Can Do Better

Indications are there will probably be no Intramural Table Tennis tournament held this year.

According to Intramural Athletic Director Bert Kurth, only four entries could be mustered for the tournament last year. Four out of a student body of approximately 4000 full-time students.

In stark contrast, the girls held their tournament this week. There were 34 entries. Perhaps this merely points out the old adage that man likes only contact sports, but this doesn't quite hold true either. How does one explain the popularity of tennis? Or volleyball?

Lots of Players

There are numerous players on campus, as evidenced by the number of Omaha University students showing their form at various and sundry spots around town. In addition, the women's quonset hut containing excellent tables is open once a week to students. This is probably the only intramural sport on campus that the school makes practice facilities available for.

It is true that to play decent table tennis one's legs must be in reasonable shape, one must have some degree of skill with the paddle and a great deal of agility helps.

Thinking Helps

Perhaps the greatest asset a player can have is the ability to think; able to outpsych his opponent. This may provide the reason table tennis is not popular among many males on campus.

Most intramural sports are team affairs. If you make a mistake, it can often be covered by someone else. In this game, it is strictly a one-on-one situation. There is no one to cover. This situation often goes by the name "pressure." Can the girls take it and the men not?

9 Cheerleaders Will Be Chosen

The Inter-Pep tea to choose members of the 1965-66 Cheering Squad will be held today at 2 p.m. in room 301 of the Milo Bail Student Center. Applicants meeting the requirements of the organization have been invited.

They will be interviewed before a seven-member panel consisting of the executive council of Inter-Pep and three faculty members. Those accepted for membership will be notified by mail soon after the tea.

Cheerleading Tryouts

Inter-Pep will also sponsor cheerleading practices April 26, 27, and 28 at 2:30 p.m. in the women's P.E. hut. The present cheerleaders will be there to help all those interested in trying out.

Cheerleading tryouts will be held next Friday, April 30 at the stadium from 2:30 to 4:30 p.m. Those trying out will be asked to give two cheers; one cheer will be of their choice and the other will be a special cheer that everyone will do.

Jays Drop Omaha U. Golf Squad, 13-5

Creighton University golfers made it two out of three this year with a 13-5 win over Omaha University Tuesday afternoon.

Omaha's Bill Hoffman, a season long standout for OU, took medalist honors with a 73 in beating Creighton's Bob Mitera.

Earlier, OU linksmen lost to Nebraska and beat Midland over the spring break.

Results

Bill Hoffman, Omaha, 73, defeated Bob Mitera, 75, 2-1. Dennis Hulihan, Creighton, 76, defeated Paul Anderson, 85, 3-0. Jack Eross, Creighton, 81, defeated Ron Harlow, 82, 1½-½. Mike Conway, Creighton, 81, and Jim Mickelson, 81, tied, 1½-1½. Tom Smith, Creighton, 75, defeated Jim Thompson, 78, 2½-½. Glenn Ettis, Creighton, 81, defeated John Fullerton, 84, 2½-½.

N.U. 15, OU 10, S.D. 7

Tom Thompson, Nebraska (76), defeated Alex Koza, SDU (80) and Paul Callahan, Omaha (96). Bob Saffer, Nebraska (84), defeated Robert Mueller, SDU (85) and Bill Hoffman, Omaha (91). Jim Thompson, Omaha (85), defeated Carl Martinson, Nebraska (87), and Dennis Dobson, SDU (87). Steve Nelson, Nebraska (86), defeated Paul Anderson, Omaha (88), and John Jensen, SDU (92). Walt Imig, Nebraska (82), defeated John Fullerton, Omaha (84), and Steve Holdrege (94). Sue Grace, Nebraska (91), defeated Mike Baylor, Omaha (94), Ray Holtgren, SDU (95).

OU 12, Midland 3

John Fullerton, O.U. (86), defeated Roger Peterson (88), 2-1. Bill Hoffman, O.U. (78), defeated Bill Kellogg (91), 3-0. Jim Ebers, Midland (83), defeated Jim Thompson (87), 2-1. Paul Anderson, O.U. (79), defeated Rich Murphy (88), 3-0. Jim Nicholson, O.U. (83), defeated Dick Mendenhall (87), 3-0.

OU Takes Fourth At South Dakota; Wins At Midland

(Cont'd. from Page 1)

HOW THEY FINISHED

South Dakota	65	Wayne	12
Mankato	36	Northern	12
Yankton	27	Huron	4
Omaha	20½	Augustana	3½
Morningside	17	Southern	1
Westmar	15	Buena Vista	1
St. Cloud	12	Sioux Falls	0
		Dakota Wesleyan	0

Omaha U trackmen, with Ken Gould getting the lone Indian individual victory, took fourth place in the South Dakota U Invitational at Vermillion last Thursday.

Gould won the mile in 4:27 and was second to St. Cloud's Van Nelson in the two mile run. Nelson and Gould both eclipsed the old meet mark.

OU's Loren Drum took second to Mankato's Bud Astrup in the 440.

RESULTS

880 relay—South Dakota, 1:31.1; 5, Omaha, 1:00—Dan Travaille, Morningside, :09.9, 440—Bud Astrup, Mankato, :51.1; 2, Loren Drum, Mile—Ken Gould, Omaha, 4:25.7, 120 highs—Tom White, Yankton, 14:6 (better record of 14:8, White, 1964), 220—Don Travaille, Morningside, :21.7 (better record of 21.9, Travaille, 1964), 880—Frank Hoy, South Dakota, 1:57.2; 4, Ray Hultman, Omaha, 330 intermediate hurdles—Tom White, Yankton, :40.3; 3, tie between Gilbert, South Dakota, and Gary Power, Omaha. Two-mile—Van Nelson, St. Cloud, 9:34.1 (better record of 9:44.7, Peterson, South Dakota, 1964); 2, Ken Gould, Omaha. Mile relay—South Dakota, 3:25.6; 4, Omaha.

Shot—Jerry Schlekeway, Northern, 56-11½ (better record of 54-9¾, Schlekeway, 1964). Discus—Jerry Schlekeway, Northern, 154-6. Javelin—Jim Oplinger, Westmar, 194-5 (better record of 191-5¼, Katsis, Wayne, 1962). Broad jump—Gene Head, Yankton, 22-7½. High jump—Tom Jones, Mankato, 6-1¾. Vault—Korhel, Mankato, 13-1.

Midland Relays

OU's two mile relay team and miler Ken Gould were individual winners for the Indians at the Midland Relays at Fremont last Wednesday night.

Gould led all the way in winning a 4:27 furlong over Jim Comstock of Nebraska Wesleyan. The Indian two mile quartet of Loren Drum, Ray Hultman, Herb Rhodes and Gould won in 7:53.9, a full eight seconds over the meet record they established last year at Midland.

OU's 440 relay team was second to Wesleyan, the 480 shuttle hurdles crew was second to Doane, the sprint medley quartet was third behind Doane and the mile relay team took a fourth, again to Doane.

Results

TRACK EVENTS

440 relay	1	Nebraska Wesleyan	
(Mike Knabu, Scott Hayman, Arland Stromberg, Kendall TeSebe)	2	Omaha	
3: Doane	4	Westmar

880 relay—1, Doane (Pat Samusevich, Dennis Ryba, Phil Becker, Dave Dunham); 2, Westmar; 3, Omaha; 4, Nebraska Wesleyan; 5, Dana, T. 1:31.1			
Mile relay—1, Doane (Paul Orvis, Bruce Maschmann, Peter Suram, Rick Wood); 2, Nebraska Wesleyan; 3, Omaha; 4, Hastings; 5, Midland, T. 3:23			

Kansas Relays

The Indian two mile relay team of Loren Drum, Herb Rhodes, Ray Hultman and Ken Gould set a school record but finished fifth in the College Division at the Kansas Relays last Saturday afternoon in Lawrence.

OU hurdlers Clyde Ketelesen and Gary Power were the only other Indian entrants and they failed to place in Friday's prelims.

Power set a new OU mark of 14-2 in the 120 highs but happened to land in KU champ Bobby May's heat and took fourth place.

Spikers, Faculty Cop Titles: Softball Action In Full Swing

By Roger L. Prai

Volleyball came to a close with one of 13 competing teams remaining undefeated. The Spikers in league #2 wound up the season with a fine 16-0 mark.

Taking top honors in league #1 was the Faculty-Staff with a 13-3 record. Bunched closely behind were the Pi Kaps with a 13-5 mark followed by the TKE's and Sig Eps. All four teams had a shot at the league title until late in the season when the Faculty-Staff took firm command.

Finishing in the places they occupied nearly all season long was Lambda Chi in fifth place; coming in last was Theta Chi with two victories to their credit while absorbing 15 losses.

Close Race

In league #2, it was strictly a two man show between the Spikers and the dangerous 007's who nailed down second spot with 11-4 honors.

Finishing third were the Bootstrappers with a 9-6 mark. The rest of the league was never in contention during the season. Contesting for last, the "O" Club snagged last place honors from the Arnold Air Society. Arnold Air won three games while losing 12. The "O" Club managed one win with ten losses.

The "O"'s final standings in the league came as somewhat of a surprise to many because of their usually good showing in other sports.

One noteworthy observation was the participation of more than 180 students during the five week volleyball season.

FINAL LEAGUE STANDINGS

League #1	W	L
1. Faculty-Staff	13	3
2. Pi Kaps	13	5
3. TKE	10	8
4. Sig Eps	9	9
5. Lambda Chi	7	10
6. Theta Chi	2	15
League #2	W	L
1. Spikers	16	0
2. The 007's	11	4
3. Bootstrappers	9	6
4. Lit Pikes	6	9
5. Delta Sigs	5	11
6. Arnold Air Society	3	12
7. "O" Club	1	10

Graduates 21-18.

However, Wednesday found the Satellites on the short end of a 13-7 score with The Team. The Rebels triumphed over the Lit Pikes 20-14.

Teams this year are divided into three leagues with cross league play featured. A championship playoff will be held at the end of the season from May 24 through May 26.

Golf Meet

A tournament for intramural golfers will be held at Elmwood Park May 19 through May 23. Individual and team trophies will be awarded.

Each team, consisting of four men, will be required to play the first nine holes of the Elmwood course. However, entries must play with members of another team with those present signing the score cards.

Upon completing their round, golfers may turn in their cards to Tim Nelson at Elmwood Pak.

NAIA BOWLING

The NAIA area bowling roll off to determine entrants in the NAIA national tourney at Kansas City will be held today at the West Lanes beginning at 3:00.

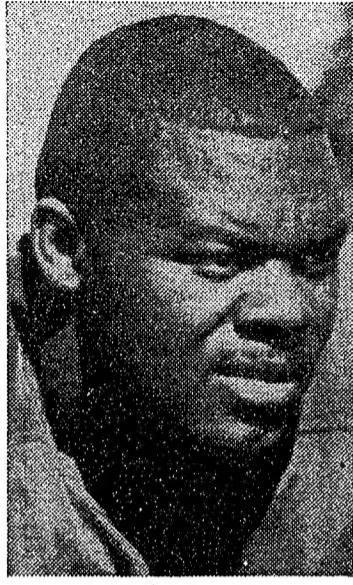

Omaha University entrants and their scores from the OU roll off on April 9th are:

	W	L
TKE	77	23
Bootstrappers	74	26
Lambda Chi	74	26
Delta Sigs	67	33
Pen & Sword	61½	38½

Lambda Chi Alpha	2407	
HIGH SERIES		
J. Gomez	701	
Lambda Chi Alpha	2407	

THIS WEEK'S SCHEDULE

Bootstrappers vs. Sig Eps<br

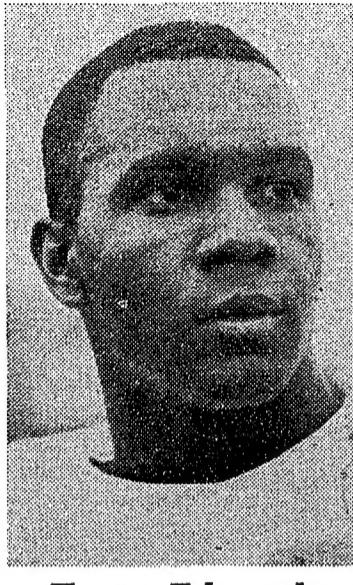

OMAHA SPRING PLAYER PROFILES

**Jimmy Jones**

Senior Jim Jones (6-5, 260) appears headed for his greatest year. The Morristown, N.J., strongboy looks like a sure bet for the tight end slot in OU's new pro-type offense this season. Named All-CIC as a sophomore and to the NAIA District squad last year, Jones has proved that he can go both ways with equal finesse.

Big Jim led the 1964 Indians in pass receiving with 21 grabs for 199 yards. He played both middle linebacker and the end spot on defense at times.

If Jones can come through as expected this fall, the big boy could develop into one of Omaha's greatest ends. His scouting reports by pro scouts are excellent and he looks like a sure draft choice.

**Terry Edwards**

Junior Terry Edwards is a two letter winner from Omaha Tech. Originally groomed as an offensive end, Edwards quickly proved that his lateral moves and ability to stay in the thick of things deserved a defensive end spot.

At 6-0 and 200 pounds, Terry isn't easy to move on sweeps and time after time hauled down enemy back for big losses last season.

He caught 2 passes for 11 yards last season as a part-time offensive replacement. But plans call for Edwards to stay at defensive wing this time around.

OU fans will remember Edwards for great 1964 performances against Northern Illinois and Fort Hays State.

1965 Omaha U. End Roster

*** Jimmy Jones	Sr.	6-5	260	Morristown, N.J.
** Mike DiBiase	Jr.	6-3	195	Wilcox, Arizona
** Terry Edwards	Jr.	6-0	200	Omaha (Tech)
* Jim Norris	Jr.	6-2	220	Lusk, Wyoming

* denotes letters earned

**Jim Norris**

220 pound Jim Norris was one of the pleasant surprises to line coach Don Watchorn last season. The Lusk, Wyoming, native came unheralded to OU in 1963 and didn't letter his freshman year.

But the service vet returned in 1964 to overcome his initial disappointment and become a stalwart in the OU defensive interior.

Norris earned his letter with the 1964 Indians with vicious end play and jarring tackles. His play against Drake and Bradley was his best of the year.

He has added some 20 pounds in two years and seems to keep right on growing. Coaches look for another fine season for Jim at his defensive post.

**Mike DiBiase**

Junior Mike DiBiase, dubbed "Iron Mike" by fans, has shown a pair of the finest hands of any Omaha wingman in recent years.

Mike caught 19 passes for 280 yards and five touchdowns in 1964. At one point, he scored five of seven OU touchdowns in a three game span.

Fast and blessed with good moves, DiBiase also uses his 6-3, 195 pounds into blocking assignments as well. He has shown the ability to go both ways but coaches would rather take advantage of him offensively.

He will probably play the split end in OU's pro offense this season and tight end if needed. He came to OU from Wilcox, Arizona.

Omaha Wins Six Of Eight On Trip

Phillips Falls Twice

(Cont'd. from Page 1)
and Bernth came in on an error. Ed Bryant then singled in Lenz and Rich Vacek's sacrifice fly brought in Lew Garrison with the inning's fourth tally.

Rookie catcher-outfielder Dale Lortz had two hits in two trips and batted in a run.

Cade's Cage

Diane Cade
Special Events Editor

The Image Is Yours

It seems like nearly everybody today is interested in his image. Whether it's a corporation or a movie star, it's the image that's important. And so it is with a University.

The image of the University of Omaha has been the theme of many a coffee-break discussion here since its inception in 1908 and, little by little, OU's image has assumed a position somewhat akin to the weather—everybody talks about it, but almost nobody does anything about it. Unlike the weather, though, something can be done.

I'm sure we would all take our hats off to those here at OU who are truly concerned about its image in the civic eye. But, what about the rest of the student body and faculty who do little or nothing in the way of prideful promotion for their university?

Certainly, OU's General Printing and Information office has done a commendable job in getting campus and student news out to the other news media in the city. And our presidents have done a great deal in forming good public opinion for OU. But, we cannot rest upon their laurels alone. Each of us, as members of the student body have a part to play.

Recently, I attended a meeting on campus of the Nebraska Chapter of the Public Relations Society of America. The meeting devoted its time to discussing various public relations situations, evaluating them, and offering some reasonable suggestions toward solutions. During the course of the morning discussion, the question of public support for Omaha University came up and a good deal of time was spent on this matter.

What's the Image?

What is OU's civic image? Is it good, bad? Are most Omahans indifferent towards their University? What is the students' image of OU?

It's difficult to find a measuring stick with which to gauge these things. However, I think the old cliche "actions speak louder than words" applies here. We could look back to 1963, the year of the mill levy that wasn't. There has been much discussion as to why the proposed levy didn't get past the voters. The time was wrong. The voters were apathetic. The voters didn't want to increase their already high taxes. Yet, let it be noted that the mill levy was defeated by only 1500 votes. That's not very many. Now, could it be that if these voters who turned out had been more informed about their University and more personally involved that their vote might have been in the affirmative? And what about the majority of voters who chose not to vote—was their apathy due to misinformation or a lack of pertinent information about this institution? And then, it could have been strictly political reasons the bill was defeated.

It was most likely, an amalgam of the above. Now, this is a part of the past, but let it not be forgotten. It is the wise man who heeds his mistakes so that he will not make them a second time. Wouldn't it be a good idea to start right now to secure better public support and understanding for the future?

How To

What we need is one of those "How To" books that gives us all the answers on how to build a better image for our alma mater.

Maybe this hypothetical book would suggest that first we educate the students as to why OU needs their support. There's nothing like starting from the grass roots. Chapter one would probably stress the fact that any organization is judged by the kind of people it produces. After all, these students of today will be tomorrow's alums. And any alumni director will tell you there's nothing like having an active alumni association.

Chapter two might begin, "An institution (like OU) needs a strong continuing program with which to attain and maintain favorable public opinion. The community must understand why their support is needed," especially where a municipal university is concerned. Another topic that might be touched upon would concern the role of students in forming public opinion. Personally, I feel that this aspect deserves some special attention.

Since OU is a municipal university without any campus dorms this makes it a different animal. As a matter of fact, this poses some real sticky problems. School spirit (that poor old whipping post) is one good example. With such a mobile student body, this University has to make an extra effort to unify its students. I do feel, however, that more student participation (as a student body) in civic affairs could be both enjoyable and profitable for OU.

For example—next year, 1966, will be the Nebraska Centennial. Preparations for this event have already begun at the state's capital. The Omaha Chamber of Commerce has also begun their plans for their part in the celebration. Undoubtedly, they will invite OU to participate in the parades and such along with the other colleges and the high schools in this area. But, wouldn't this be a fine opportunity for the students at OU to participate as a group in some special endeavor in tribute to Nebraska's 100 years.

Busch Attends Idea Exchange

Dr. Karl Busch, head of the biology department, attended a conference at Cornell (Ithaca) on April 9 and 10. The conference was held to exchange ideas among the representatives of 24 schools.

The schools represented at the meeting were recipients of a grant by the National Science Foundation for the Academic Year Institute.

An explanation of the Biological Science Curriculum Studies (BSCS) was given at the conference. The BSCS is a new approach to the teaching of high school biology giving more emphasis to experiments. Dr. Busch also saw the plant research being conducted at Cornell.

Woodwind Ensemble Presents OU Concert

The University of Omaha Woodwind Ensemble, directed by Kermit C. Peters, assistant professor of music, will present a concert in the Conference Center Auditorium, Sunday, at 7:30 p.m.

'65 Chevelle Malibu 4-Door Station Wagon

'65 Chevy II Nova Sport Coupe

'65 Corvair Corsa Sport Coupe

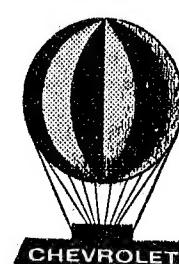

If you've been sitting tight waiting for just your kind of car, with just your kind of power, at just your kind of price—wait no longer!

Chevrolet. It's a bigger, more beautiful car this year. Which is why that handsome silhouette could be mistaken for cars costing a thousand—even two thousand—dollars more.

Chevelle. This one's got lively looks, spirited power, a softer ride—and remarkable room atop a highly maneuverable wheelbase. No wonder it's today's favorite mid-size car.

Chevy II. No car so trim has a right to be so thrifty. But thrifty it is, with money-savers like brakes that adjust themselves and a long-lived exhaust system.

Corvair. Ask any '65 Corvair owner how it feels to drive a car with such easy steering, tenacious traction and responsive rear-engine power. And be ready to do lots of listening.

Spit Wads Frustrate Actives

Ever unwad 500 spit wads? Lambda Chi Alpha actives had that dubious pleasure Tuesday night. With sadistic glee, pledge trainer Jim Casper and his assistant Jim Blair led the fraternity's pledges on their traditional pledge-skip while actives searched frantically for clues.

The active's hunt included the unwadding of 500 spit wads stuffed into a trophy—one of

the wads contained a clue.

Other clues tested the actives' ingenuity in figuring out a deliberately confused map and analyzing the meaning of several other limericks.

The actives finally gave up in frustration. The skip officially ended at 11 p.m. when the pledges came out of their hiding place at the Music Box and went to meet their actives at La Casa's restaurant.

OU Art Goes To High Bids

This year's art auction will consist of two phases. May 8 an informal coffee from 7 to 9 p.m. will be held in order that the works may be previewed. The actual auction will take place May 9, from 1 to 5 p.m.

The auction will be open for participation to any full or part-time student who has taken art courses during the academic year in which the auction is held.

Twenty-five percent of the sale price will go to the art club. Seventy-five percent will be given as a tuition rebate to students whose work is sold, except for students who graduated in January or will graduate in June. These students will receive a check for the seventy-five percent.

All work submitted will be juried previously to the auction by the faculty.

The auction, which will be held in the student center, will be called by an auctioneer.

ROTC Sabres Drill Each Day

The University of Omaha Air Force ROTC Sabre's Drill team works towards perfection five days a week. The team, under the direction of Commander Cadet Colonel William P. Applegate works on fancy and precision drills. The commander is chosen yearly and must be a junior or senior. This year Commander Applegate is a senior.

The team consists of 30 members. Anyone in the AFROTC may tryout for the drill team regardless of academic year or cadet rank. The tryouts are held every year.

Upcoming performances of the Sabre's will occur in Denver and Boulder, Colo. On May 1 they will perform for the President's Day Review. In the middle of May, they will compete with other drill teams at the University of Nebraska. They will give an exhibition at Dana College at the end of May.

In 1960 the drill team won national acclaim by taking second place in National Drill team competition.

Cheerleading practice will be held for all interested persons, male and female, April 26th, 27th and 28th. The practices will be held in the south gym of the Women's P. E. building from 2 to 4:30 p.m. each day.

Milton On The Loose

Raisin Named After Viet Nam's Ray Zin

By J. C. Milton

Rarely, if ever, do people come up to me on campus and ask me to write something about raisins.

However, the other day, some young lad approached me, said "tell me that raisin, George," and then staggered on his way, taking a nasty fall every three or four steps. Naturally, I thought nothing of it. "These fraternity men," I said, shaking my head understandingly. But, I figured that if the drunks wanted a raisin story, who was I to go against a majority group that large?

So I dug up an old raisin story which has been passed down from ethnic group to ethnic group for at least three years. Although its suitability for college students is a moot point, said folk fable follows:

Once upon a time in the providence of Kitchy - Kitchy in South Viet Nam there lived a little family whose surname was Zin. Now what do you think the father's first name was? That's right—Ray... Ray Zin. And I'm not even going to apologize for that.

Anyway, Ray and Gertrude Zin had about thirteen kids, and their oldest, their number one son, traded in the family's water buffalo for some magic seeds. Actually, they were dried up and wrinkled little things that Ray Zin, having nothing better to do, decided to name

after himself. He called them Zins. No, I'm only kidding, he called them Ray-Zins. Anyway, Ray's son, who attended college, (and I only put that in to show the intelligence level of the lad) said that if you placed the seeds outside overnight something spectacular would happen, although he wasn't sure what. Something about a beanstalk, but that would be absurd. It would have to be a Ray Zin stalk.

Well, Ray put the "raisins" out and it rained that night which is pretty spectacular in itself because it usually rains every other night in that particular region of South Viet Nam. And, it seems that the Ray Zins got diluted and turned into grapes, so Ray made some wine, got soused on same, and ran into his house shouting, "It's time for another Kitchy - Kitchy - Coup." Whereupon Ray's wife slapped him silly.

I don't understand that last line anymore than you do. These Oriental fables always were inscrutable.

Would Be Teachers Note

All persons who are planning to student teach in the secondary schools next fall are required to attend a meeting May 3 at 3:30 p.m. in room 389 in the Administration Building.

Duchess candidates are Ruth Helligso, Judy McCoy, Sharon Donnermyer and Merrilyn Theiler.

Delta Rho Gamma To Host All Greek Dance; Participants Will Choose 1965 Duchess

Delta Rho Gamma will host the Duke and Duchess Dance tonight in the Student Center Ballroom. The all-Greek dance will feature the election of the Delta Rho Duchess. Vying for this title are Sharon Donnermyer, Alpha Xi Delta; Ruth Helligso, Sigma Kappa; Judy

McCoy, Zeta Tau Alpha and Merrilyn Theiler, Chi Omega. The election will be by one vote per Greek card.

Sponsors of the 9-12 a.m. dance are Mr. and Mrs. Mike Levy, Miss Grace Kundel, Dr. and Mrs. Forrest Hazard and Mr. and Mrs. James Brown.

Master of ceremonies of the semi-formal event is Warren Lenz.

'April Showers' Reign At Zeta Dinner Dance

April Showers will be the decorative theme of Zeta Tau Alpha's dinner dance Saturday night. The dance will be held at Kiewit Plaza for sorority members and their dates from 8 to 12 a.m.

Awards will be presented to the sorority's outstanding senior and junior.

Georgeanne Schnurr will present a toast to the 1964-65 pledge classes. Kathy Hurley will toast the active chapter.

Entertainment will be provided by the Zeta Singers, a sextet composed of sorority members. Les Tighe's Band will play for the dance following the dinner.

Mary Rheinfrank, social chairman, is in charge of dinner dance arrangements. Ruth Wieczorek is planning the pre-party which will be held at her home.

New Officers

Zeta installed new officers April 24th. Cheryl Bird has officially accepted the President's gavel. Other members of the executive council are Judy Anderson, pledge trainer; Kathy Fentress, rush chairman; Mary Rheinfrank, secretary; Roberta Pechous, treasurer; Irene Jacobs, ritual chairman; Diane Berry, historian; Jacque Newcomer, Panhellenic treasurer and Lydia White, social chairman.

Formal pledging preceded the installation of officers. Joan Holzapfel and Sherry White received their pledge pins.

Junior, Senior Honorary To Increase Membership

The Corinthian Society, an honorary for junior and senior men and women, is looking for new members. Students who are currently enrolled for 12 hours this semester and who have completed 58 hours earning a 3.5 accumulative grade point average are eligible for membership. Any student meeting these qualifications is asked to contact LaDonna Johnson at 331-6126.

Senior Class Owes Fees; Deadline Is May Seventh

A table is set up on the main floor of the Milo Bail Student Center for the payment of Senior class dues. Included in the fee is payment for the Senior class dinner dance and gift.

For further information contact representatives of the Senior class who will be at the desk. The deadline for payment of the fee is May seventh.

TO EUROPE ON A STUDENT SHIP!

The anticipation of getting there on a lively student ship is half the fun of going to Europe.

And when you get there — your INTERNATIONAL STUDENT ID CARD is a "must" for discounts in 28 countries. Savings in hotels, restaurants, transportation, theatres, museums, stores. Also good for discounts in the U.S.A.

Application For ODK Must Be Filed Today

The deadline to apply for membership in Omicron Delta Kappa, senior men's honorary, has been set at noon today. Brochures explaining the honorary and how to apply are available in Dr. Gale Oleson's office, Adm. Room 213.

Junior and senior men must have a 2.5 accumulative average to be eligible for membership. Interviews will be held April 25 from one to five p.m. and then the men will be graduated according to a revised point system. Members of ODK will select the new members. They will be announced at the Spring Sing on May 19.

Present members of ODK are Loren Drum, Mike Kisgen, Gary Makilko, Ken McEwen, Jack Milke, Chuck Saxton, Joel Snell and Bill Wakefield. Faculty advisers are Dr. Oleson, Dean Don Pflasterer and Dr. Ralph Wardle.

Greek Week Project To Help Camp Conota

The Greek Week project, originally slated for the week of March 22, will be held next Tuesday and Wednesday.

Greeks will assemble at Camp Conota after 3:30 p.m. on the two days to paint fences and do general repair and cleanup work. Buses will be provided to take the Greeks to the camp, but they probably won't leave campus until 4 or 4:30 p.m. Bad weather conditions made travel to the camp impossible on the original dates.

The camp is located on South Bellevue Blvd. Food will be served at no charge after the work is completed.

S. J. Johnson Wins At Delta Sig Dance

S. J. Johnson was chosen Rose of Delta Sig at the annual Delta Sigma Pi Rose Dance.

The dance was held Friday night, April 11, at the Blackstone Hotel Ballroom.

S. J. is a junior majoring in speech. She is a member of Chi Omega sorority, Angels Flight and Rifle Club. She is the 1963 Tomahawk Beauty Queen and 1964 Theta Chi Sweater Girl.

After winning this local contest S. J.'s picture will be entered in the fraternity's national contest where she will vie for Rose of all Delta Sig chapters.

OU Air Cadets Attend Washington Conclave

Three cadets from the Earl S. Hoag Squadron attended the 17th annual Arnold Air Society Conclave in Washington D.C. April 11th-14th. Captain Ronald Seinwill, sponsor of the squadron and Clarke Powers, Bob Cord and Don Spooner were representatives to the conclave.

The cadets attended business meetings and various social functions including a tour of Washington. One of the highlights of the trip was a visit to the home of the squadron namesake, General Earl S. Hoag.

TKE Men Attend Church And Host Tea For Moms

Members of Tau Kappa Epsilon fraternity will attend church services together Sunday. Protestants will go to Countryside Community Church and the Catholics to Christ the King.

A group breakfast will follow the services at Aunt Sally's Pancake House.

The fraternity men will honor their mothers at a tea in the afternoon. The tea will be held at the Central United Insurance Company and begin at 2 o'clock.

Phi Mu Alpha Initiated 6 Into Its Chapter Sunday

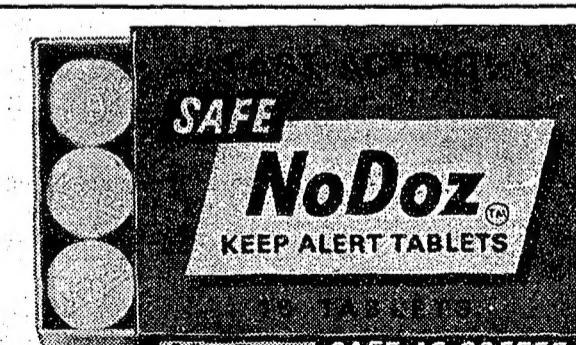

Phi Mu Alpha music fraternity has initiated six men into its chapter.

The new members include Greg Losso, Jerry Magner, Mike Malstead, Tim Nelson, Rick Switzer, and Russ Wolf.

The members were initiated after a semester of pledgeship and obtaining certain standards within the fraternity.

Chi Omega Pledges Three

Chi Omega pledged three girls in open bidding Wednesday evening. They are Karen Reeves, Janet Voelte and Marty Williams.

THE SAFE WAY to stay alert without harmful stimulants
